

PRODUCT DATA SHEET: 30W LED AREA LIGHT WITH MICROWAVE SENSOR

This 30 watt light comes with a fitted 10 meter microwave sensor meaning that after 15 minutes, if no movement is detected, the light will power down to 30% brightness to save energy and when movement is detected, power goes back to 100%.

The Lamp is LED to further reduce energy consumption and running costs whilst also extending its operating life.

It can also be suspended from the ceiling, mounted to a wall or simply stood on the floor.

KEY FEATURES:

- Available in 110v
- 30 Watts
- 3400 Lm on 100% power – 1020 Lm on 30% power
- 15 Minute microwave sensor to detect movement
- Movement range: approximately 10 meters
- IP54
- 360° beam angle
- Microwave sensor: 5.8GHz
- 30000 hours operating life
- 3 meter 1.5mm 3 core cable
- 16amp 110v plug
- power take off socket for linking multiple units
- can be suspended from a ceiling, fixed to a wall or stood on the floor
- Weight: 2Kg
